NS3-C

Network Ceiling Sensor with Combined PIR, Daylight and IR Control

Key Features

- Excellent sensitivity to small movements using Quad-Pyro technology
- Greater sensor stability with reduced noise susceptibility
- 360 degree detection area
- Ceiling flush mounted for a low profile, unobtrusive installation
- Compact 49mm diameter size ideal for suspended ceilings, chilled beam and In fill plate applications
- Connects directly to the iLight iCANnet Network
- Configuration stored in Non Volatile EEPROM
- Firmware storage in reflashable FLASH memory over iCAN network
- CE & UKCA compliant to all relevant standards
- Designed and manufactured to ISO9001 standard

Overview

The NS3 multi sensor can be connected directly to the iLight iCANnet™ Network via CAN terminals. It features 3 functions: PIR motion detection, daylight measurement and an infra-red receiver. All three functions may be programmed within the iLight software according to specific user needs.

This sensor features a movement detection coverage of up to 8.5m diameter depending on installation height with PIR detection optimised for Slight Motion for superior performance.

The PIR feature may be set in absence or presence detection mode with variable programmable timing.

The daylight feature is used to maintain constant light level where controlled luminance (daylight linking) is required.

In operational mode the infrared receiver may select scenes, turn lighting on/off and adjust levels locally.

The NS3-C sensor's combined features ensure maximum energy savings as well as great flexibility for the user.

Suitable For

Cellular office

Open plan office

School classroom

Lecture theatre

Retail complex

Public library

Sports hall

Airport terminal

Hospital wards

Factory production area

Corridor & staircases

Foyer & atriums

Plant room

Storeroom

Consulting room

Meeting room

Technical Information

Construction: Circular plastic housing
UL94 V0 rated

Dimensions:
Diameter front 49mm, rear 39mm Depth 30mm

Fixing: 2 x spring clips

Mounting Hole Diameter: 40 to 45mm Diameter
depending on ceiling material

Weight: 35g

Temperature: 0 to 45°C (non condensing)

Supply: 9 - 24V dc (regulated)

Load data: 10mA @ 15V

Max recommended mounting height: 3.4m

Operating Parameters

Connects directly to the iLight Network
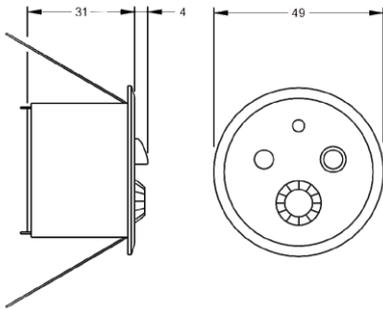

Controls any luminaire anywhere on the System

Presence and Absence functionality

Light Thresholds, Scenes and Time Outs programmed &
adjusted at any time in software.

Built-in flexbility to suit individual user requirements

Max recommended mounting height: 3.4m

Dimensions

Typical Schematic

Lighting Source Controller · 12 - 15V PSU · Control Plate · NS3-C

iCANnet

Options

Surface mounting box - AX-SMA1

(Order Separately)

Detection

X-Y Cross Section

Detection Area - Zone patterns at the optimal slight motion
detection distance of 2m from sensor

The differences in the detection
zone patterns are indicative of the
projections of the 26 lenses with
single focal point and with three
optical axis.

An object whose temperature differs
from the background temperature
and which crosses inside the
detection zone will be detected.

Detection range is typically calculated
at the working plane (900mm off the
floor)
