- All graphics and buttons can be customised
- Password feature to allow different access levels
- CE & UKCA compliant to all relevant standards
- Designed and manufactured to ISO9001 standard

#### Overview

The TSE80 touchscreen is a flexible device which provides an intuitive "user friendly" method of interfacing to the iLight control system. The LCD capacitive screen provides virtually limitless flexibility of system configuration and control. It is completely software based, and programs can be tailored to suit the precise needs of the user. The touch screen can also be used to provide control of other integrated systems such as curtains and blinds and HVAC.

TSE80 comes with a choice of two graphical skins which can be swapped between easily at programming stage to the clients preference. The look can be further personalised by adding custom background images - From a branded hotel welcome page to a minimalist theme for a home cinema room.

TSE80 connects to the iLight network using a TSI-1 touchscreen interface.

#### 'User Friendly' Software

Screen Design and Customisation requires a CLS TSE Designer Software License. The software incorporates a guick start wizard and full design mode for simple or custom screen designs.

Background images can be quickly applied using the browse function and virtual buttons positioned at any point with a simple 'drag & drop' action. By applying a different appearance to the button, they can be used to show when a function has been activated.

#### Functionality

Scene Selection Scene programming Channel level edit via graphical sliders showing percentage. Scene and channel naming Task / sequence programming Default screen programming Photocell / motion sensor interaction Ability to import room layout drawings, logos & graphics

Ability to insert soft buttons for activating scenes and / or channels

#### Electrical

Supply: PoE 802.3af complaint via RJ45 connector or 24Vdc via power connector (Order separately)

Programming: Eaton's TSEdesigner software via Ethernet connection

Diagnostics - network

Memory: DDR3 x32 1600Mbps (Expandable to 4GB), 8Gb eMMc

#### Mechanical

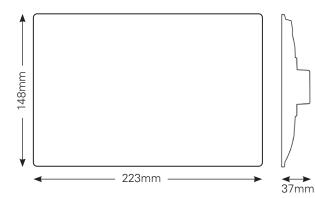

#### Display:

High performance HD, IPS 8" LCD, 1280 X 800 resolution Colour Depth: 16.7M colours, 400 nits brightness Projected Capacitive Touch supporting multi-touch & gesture

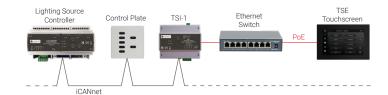

Climate Range: Temperature: +2°C to +40°C Humidity: +5 to 95% non condensing
